[phemelothukgwe66-gif/alx-aice-portfolio](https://github.com/phemelothukgwe66/alx-aice-portfolio): Portfolio of AI projects, ethical reflections, and prompt engineering work from ALX AiCE.

Professional Summary

Dedicated and AI-fluent professional with specialized training in Artificial Intelligence, advanced prompt engineering frameworks, and technical education. Graduate of the ALX AI Career Essentials (AiCE) programme, combining a solid technical foundation in mechanical engineering with modern digital workflow optimization. Eager to leverage generative AI tools, prompt methodologies, and analytical problem-solving skills to drive efficiency and impactful results in a dynamic work environment.

Core Competencies & Skills

- **Prompt Engineering & Generative AI:** Designing structured LLM prompt frameworks (Role, Context, Task, Constraints), task decomposition, and iterative prompt chaining.
-
- **AI Ethics & Safety:** Auditing AI outputs for algorithmic bias, implementing data privacy protocols, and championing human-in-the-loop oversight.
-
- **Technical & Engineering Knowledge:** Mechanical Engineering principles, technical drawing, problem-solving, and analytical calculation (Report 191 N4 coursework).
-
- **Professional Meta-Skills:** Critical thinking, written and verbal communication, adaptability, teamwork, and reliability.
-

Featured Projects & Portfolio

- **AI Portfolio & Prompt Library (GitHub):** Developed and published an open-source professional portfolio showcasing structured prompt engineering frameworks, ethical AI reflection guidelines, and mission-driven campaign strategies.
-
- **Ethical AI Implementation:** Designed safety checklists and auditing workflows to ensure responsible deployment, privacy protection, and prevention of algorithmic bias.
-

Education & Certifications

- **Report 191 (NATED) N4 - Mechanical Engineering** | Sedibeng TVET College — May 2026 – August 2026
- - *Focus:* Applied mechanical engineering theory, technical problem-solving, and analytical computations.
 -
- **AI Career Essentials (AiCE)** | ALX — August 2026 – Present

- - *Focus:* Foundational AI literacy, advanced prompt engineering frameworks, AI ethics and bias auditing, and digital portfolio building.
 -
- **National Senior Certificate (Grade 12)** | F.M Ramaboa Technical High School, Itsoseng, North West — 2024
