

## Primary Audience

Young creators and emerging playmakers — singers, DJs, painters, filmmakers, and athletes aged **16–30** in South African townships and urban centers. They're ambitious, digitally active, and hungry for platforms that recognize their talent and values.

## Platform Choice

They spend most of their attention on **Instagram**, **TikTok**, and **YouTube Shorts** for inspiration and visibility. Secondary channels include **Facebook** (for community engagement) and **WhatsApp** (for direct updates and event invites).

## Distribution Plan

1. **Hero Poster Launch:** Introduce the campaign's purpose and tagline — “Empowering Creators | Inspiring Playmakers.”
2. **Creator Stories:** Short videos and posts featuring real artists and DJs sharing how creativity changed their lives.
3. **Community Call-to-Action:** Encourage sign-ups, collaborations, and event participation through reels and shareable graphics.

## Success Metric

The campaign “worked” when creators start **joining, sharing, and tagging** the foundation — measurable through engagement rates, new sign-ups, and collaborations that turn online inspiration into real-world empowerment.
